A Number of Applications Filed--Other Business Transacted.

The board of aldermen met, last night the mayor in the chair, all present except Bogart, Elam and Ellington.

The street committee reported the work on North Greene street near the cemetery as progressing well.

The firemen's committee recommended changes to be made in the engine house and presented bids which had been received from parties wishing to do the work. W. B. Beacham being the lowest bidder, the contract was awarded him at $24.

The committee appointed to settle with the city officers made its report. The books and accounts of the various officers were accurately and neatly kept, and special attention was called to the very small list of insolvents returned by the tax collector.

President Dudley, of A. & M. College, asked for an electric light for the college. Referred to light committee.

The board of education presented an estimate of the amount of money required to run the public schools for the ensuing year. Referred to school committee.

The following persons applied for license to sell liquor by retail: E. G. Newcomb, J. R. Coble, E. G. West, R. P. Gorrel, S. J. McCauley and B. J. Fisher all at their present places; and Braxton Arman in the Balsley building on South Elm, C. H. Coble in Jeffrey's building—under the rule these applications went over until next meeting, and were referred to the police committee.

Messrs. Sergeant and Ireland, of the board of education, and Dr. McIver, president of the Normal College, appeared before the board in regard to an increased appropriation for the graded school at the Normal. Dr. McIver's proposition was that the Normal will erect a building for this school if the city will pay as much per capita for each student as in the other schools. Referred to school committee.

The salary of city attorney was fixed at $300 per year, and the attorney will receive no fees for cases in court as heretofore. A. M. Scales was re-elected.

The board went into the election of Mayor pro tem. Alderman Shaw nominated Alderman Sergeant and Mr. Sergeant nominated Mr. Shaw. Alderman Bain was appointed teller. The first ballot resulted: Sergeant five, Shaw three, Sergeant was declared elected mayor pro tem.

Summit avenue committee reported the progress of the work as satisfactory, and the board commended the committee's work.

Drank Carbolic.

This morning about ten o'clock the 18-months old little boy of Mr. Harper J. Elam, in some way managed to get hold of a bottle of carbolic acid and before it was discovered had drank a portion of its contents and spilled the rest on its clothing.

It is not known how much of the fiery fluid the little fellow swallowed, but little hope is entertained for his recovery. He seemed to be resting a little easier just after noon. We deeply sympathize with the family in the unfortunate occurrence, and sincerely hope the light and joy of the fond parents may be spared to them.

He Was Sleeping.

This morning while the waiting room at the Southern was crowded with ladies who were going to Wilkesboro to attend the annual convention of the W. C. T. U., and Winston to attend the meeting of the Woman's Board of Missions and to various other places, a drunken man sat in one corner sleeping—not too quietly. Officer Jordan woke him up and started to the lock-up with him, but just then the man remembered that he was half an hour overdue at home and told the officer he must go. Officer Jordan turned him loose and he wended his way homeward.

ADMIRAL SAMPSON WRATHY

Over the Delay in Sending Him Reinforcements,

HE PRAISES HOBSON'S WORK.

Convoys Chase Spanish Spooks Around Gulf—Fortress Monroe Quieted—Off to Manila.

By Wire to THE TELEGRAM.

Washington, June 11—A long cipher dispatch from Admiral Sampson was received this morning at the navigation bureau. The despatch is dated from Port Antonio and is said to contain news of utmost importance. It is known that the delay in sending troops to him to assist in holding the ground and the necessity of daily bombarding Santiago and the adjacent points to prevent the mounting of guns and defenses by the Spaniards have greatly irritated the admiral. The cipher message is supposed to deal with this phase of the situation and to strongly urge upon the department the expediency of hasty action. The admiral also communicated to the navy department the number and names of the ships of his fleet that he has sent to meet and reinforce the convoys. The newest plan of the administration which contemplates the holding of troop ships near Key West until Monday does not meet the approval of Sampson. He wants the transports to sail for Santiago immediately so that he will not be under the necessity of having to reduce the fortifications one day and on the next day do his work over again because of the lack of troops.

SCARE SUBSIDES.

Newport News, June 11—A despatch received here from Washington, served to quiet the excitement at Fortress Monroe caused by the report that several Spanish warships had been seen off the Capes. The despatch said that only one vessel, and that one probably a German freighter, had been sighted. The officers continue vigilant.

HEALTH SATISFACTORY.

Key West, June 11—The wet season began with last night's showers which were refreshing to everybody and everything. This morning's advises from Cuba state that the health of the sailors of the fleet continues satisfactory. Only 48 cases and one serious are in the four hospitals.

POT CALLS KETTLE BLACK.

Washington, June 11—All operations against the Spaniards in Cuba remain suspended while the convoys chase spook Spanish ships around the gulf. The war department is indignant at the timidity of the navy department. Secretary Long says convoys will return in time for the troop ships to start tomorrow. The first part of the second Manila expedition is expected to sail from San Francisco today.

PRAISES HOBSON.

Washington, June 11—In his report on the sinking of the Merrimac Admiral Sampson says: "I cannot too earnesty express my appreciation of the conduct of Mr. Hobson and his gallant crew. I venture to say that a more brave and daring thing has not been done since Cushing blew up the Albemarle. Referring to the inspiring letter which you addressed to the officers at the beginning of the war, I am sure you will offer suitable professional rewards to Mr. Hobson and his companions. I must add that Commander Miller relinquished command of the vessel with the greatest reluctance believing he would return his command under all circumstances. He was however finally convinced that for another person to attempt to carry out a multitude of details which had been prepared by Mr. Hobson might endanger the proper execution of the plan. There were hundreds of volunteers anxious to participate. There were a hundred and fifty from the Iowa, nearly as many from the New York and large numbers from all the other ships. Officers and men alike volunteered their services."

THIRD PHILIPPINE EXPEDITION.

San Francisco, June 11—There is a rumor current that Camp Merritt will be removed to Presidio but upon investigation it was proven to be unfounded. The third expedition that sails for the Philippines will be composed of United States regulars. The volunteer regiments are rapidly being recruited to the regular war strength. The transports that will compose the troop squadron are the Para, Ohio, Indiana, Victoria, Olympia, Arizona and City of Pueblo.

Miss Jennie Rolland, of Henderson, who has been visiting Mrs. Ferde Ingold, passed through this morning returning home.

ALMOST A COINCIDENCE.

Reminded of an Accident Which Happened Thirty-Seven Years Ago.

In speaking of the recent accident to Lieutenant Colonel Cowles, on Hillsboro street, Raleigh, in which his leg was broken by his horse falling on him. Mr. T. T. Brooks of this city, tells us that in 1861 a similar accident happened to Lieutenant Colonel Harry Burgwyn on the same street in Raleigh. Colonel Burgwyn's horse fell with him and instead of a leg his collar bone was broken.

Then, as at this time, North Carolina troops were encamped at Raleigh. Zeb Vance was colonel of the famous 96th and Harry Burgwyn was lieutenant colonel. Now, W. H. S. Burgwyn, a brother of Harry, is colonel of the 2nd regiment and Cowles is lieutenant colonel. Mr. Brooks belonged to the 26th and remembers the incident well. It is a coincidence in that the accident happened to officers of the same rank, on the same street and in the same manner—by the falling of a horse.

Hunting for Recruits.

The vestibule at noon today brought a party of lieutenants and sergeants from Jacksonville who are going back to their respective states for recruits. The companies at Jacksonville must be recruited to 109 men each. Some of these officers were from New York, New Jersey, Virginia and North Carolina. The North Carolina party was composed of Second Lieutenant T. B. Christian, of Durham; First Sergeant C. C. Bunce, of Raleigh; First Sergeant Hutton, of Goldsboro; First Sergeant Oldham, of Durham, and a sergeant from Reidsville. The North Carolina boys changed cars here for Raleigh. They report only two men sick in the North Carolina regiment, but not seriously. They hope to return to Jacksonville with the required number in about three weeks, though, of course, it is impossible to say how soon they will be raised.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. Havana Famine Stricken—Terror is Safe—Rainy Season Sets in. Deputies in Revolt.

By Wire to THE TELEGRAM.

New York, June 11—Sir Thomas Lipton, the great English tea merchant, arrived on the Lucania this morning. He said all England was intensely interested in the war and that Englishmen would not allow any interference by the powers. England will attend to the European nations leaving the Americans to deal with Spain just exactly as she sees fit. If it should become necessary England will send one hundred thousand soldiers to the assistance of America. We do not believe that there will be any call upon us as the whole world knows nothing can win against America.

MURDER IN NEW YORK.

Body of Jos. Britz Found Floating in East River.

By Wire to THE TELEGRAM.

New York, June 11—The body of a man, five feet, ten inches long with dark hair and complexion and apparently about 28 years old, was found floating in East river at six o'clock this morning. The arms and legs of the body were tightly pinnioned by a rope wrapped many times around the body and tied in several knots between the shoulder blades. The face was badly cut and much bruised. It is believed that it is the body of Joseph Britz, of Brooklyn, who disappeared on June 1st, with six hundred dollars belonging to his father. From the appearance of his body it is thought that Britz was murdered.

Another Murder.

By Wire to THE TELEGRAM.

New York, June 11—The body of a man five feet, six inches high, weighing 150 pounds, with gray beard and hair, and apparently about sixty years old, was found in the woods near Jamaica this morning. The body was clothed only in a suit of underwear and was badly decomposed.

Roosting on Uncle Samuel.

A day or two ago attention was called to the crowd of negroes who loaf on the stone coping around the postoffice. It is a nuisance and as such the town has a right to put a stop to it. It is trespassing on government property the postoffice authorities in this instance, have a right to stop it. We know it is objectionable because any number of people of both sexes have said so. If the crowd were clean and quiet it might be borne but when the loafers swear without regard to the passing of ladies and convert the side walk into a cuspidor the citizens of the town have a right to demand that the practice be stopped. We feel sure that neither Postmaster Glenn nor the police authorities will permit the continuance of this nuisance when their attention is called to the fact that it is a thoroughly superfluous annoyance to every woman and man who has occasion to enter the postoffice.

KILLED BY THE TRAIN.

Went to Sleep on the Track and Never Awoke.

Special to THE TELEGRAM.

Reidsville, N. C., June 11—The north bound passenger train last night about twelve o'clock ran over and killed Nat Borum about six miles from this place. The facts in the case, so far as we can learn, are as follows:

A party was given last night at the residence of Mr. Dick Stokes, at Ruffin, and quite a number of young people attended, among the number were two sisters of Borum. About eleven o'clock young Borum went to Mr. Stokes' to accompany his sisters home and as the party had not broken up and having on his everyday clothes, Borum decided to remain on the outside and await his sisters. It is supposed that he sat on the railroad track, which is just in front of Mr. Stokes' house, and fell asleep. The roar of the train failed to awake him and when the party finally ended his torn and mangled body was found strewn up and down the track. Borum was a young man, hardly out of his teens, and had held in high esteem by all who knew him. He will be buried at his home near Ruffin this afternoon.

It is an undeserved cut that the prohibition governor of Pennsylvania should be named Swallow.

Spain is said to fear "internal complications" more than war with the United States. Has the Don developed appendecitis?

The western University of Pennsylvania in conferring the degree of L.L. D. on Admiral Dewey seems to have slipped a cog in its range finder.

Sagasta's declaration that "Spaniards should hear bad news with manly calm" may be taken as a rebuke to the jets of "joyful emotions" with which they have received it up to date.

Minister of Marine Aunon has hurried to Cadiz to hurry the fleet away. The only thing that will ever get that squadron out of Cadiz harbor will be to build a fire under the bottom of it as the old darkey did his balky mule.

A Westerner has patented a mowing machine to cut down the enemy by ranks. He might try its pruning qualities on Blanco's adjectives and if it proves successful congress would doubtless authorize a plant to supply the regular army.

The reappearance of yellow fever in Mississippi thus early in the season is far from palatable news. This is a pretty big country but a war abroad and yellow fever at home is a pretty big dose to take all at once. Let us hope the doctors are mistaken in their diagnosis.

So far as the American naval reserves have came into action they seem to be quite as keen to fight as the regularly enlisted and trained marines nor has their marksmanship been poor. There is no reason to suppose the volunteer on land will acquit himself less creditably.

A deep, rich gloom pervades all the realm of snobbery. The eyes of the dwellers there are rounded with horror until the monacles have fallen out. Richard Harding Davis has been appointing himself inspector of camps to the volunteer army at Tampa and has found out that the volunteer lies down on the sand without first scooping out holes for his shoulder blades and that he hides ginger snaps under his blanket. The captains and colonels also have neglected to supply themselves with copies of "Soldiers of Fortune" to be used as an army manual and have otherwise failed to look up to where Richard Harding stands poised on the very apex of his imagination. The only redeeming feature Tampa is General Nelson A. Miles' porcelain lined bath tub.

Congress has not been taken with cramps at the idea of taxing small to-tobacco dealers in the south to an extent that the business will ill bear but the sugar trust and standard oil concern are by far too sacred to be called upon to bear their just portion of the burdens of the tax gatherer. It is another instance of the rank cowardice and favoritism of the republican party which is irrevocably committed to the policy of protecting the strong against the weak. The republican party is no longer a political party as Americans are wont to use that term. It has lost the power to imitate. It has not the vision to see the right nor the grace to follow it. It is become a mere tool and, what is infinitely worse, a willing one.

People who take current cartoons as merely something to be laughed at miss one of the clearest exponents of contemporary history. A copy of Punch, or Puck, or Judge, or Kladderadatasch will often give the week's events as clearly and much more vitally than any amount of printed matter. The cartoonist takes things to be sure therein lies the real usefulness of the so-called comic papers. In the current number of the Review of Reviews, for example, in the selected cartoons always a feature of that periodical reveals more clearly the attitude of the nations toward us than extracts from German, French and English periodicals could possibly reveal it. The cartoonist, much more than the editor, takes forethought to swim with the current. A cartoon from the Bee, of New York, showing by faces how Europe received the news of Manila is the best of all current cartoons we have seen.

***

The most disappointing thing in current literature is the war poetry. One hardly knows whether to wonder most at how execrably bad the major part of it is or that it should get printed. The keeper of scrap books will have great opportunity for dividing, but he will hardly find great store of pearls. Apparent Mr. J. Gordon Coogler is making his impress upon the wooers of the muse. Fortunately the American soldier or sailor is not dependent upon the poets for inspiration, for, as General Merritt beautifully said of General Alger, the muse just at present displays "diffidence in front of the enemy."

***

Perhaps the most distinctive American author since the death of Whitman is Bret Harte. There is a slumbrous, almost sombre, fire in him that you shall seek in vain for elsewhere. There are writers of western tales enough these days, but he who would know western life as it is will still turn to Bret Harte, not to Hamlin Garland, nor to Octave Thanet. Bret Harte has latterly contributed to the periodicals considerable verse and it is as characteristic as his western tales. "The Passing of Enriquez" in the current Century is as clever a bit of work as Bret Harte has done. Enriquez is as clear cut as one of Remington's drawings of the western Indian.

The June Outing is a "special cycle number" as the publishers tell us in plenitude of red ink on the cover. The publishers are somewhat belated. Folks are getting pretty tolerably tired of reading about the bicycle. Nearly everybody does or can ride the "wheel" few will choose to spend an hour reading about it instead of riding it. The bicycle has been as a great a failure in literature as it has been a success in the practical but prosaic processes of every day life, Bicycle literature is even appreciably worse worse than Mr. Cy Warman's freight train poetry. The hour for the apotheosis of the scorcher has not yet struck. Possibly when we are shooting about the country in pneumatic tubes instead of on pneumatic tires the bicycle may have its literary day but just at present we glance at "special cycle numbers," yawn discreetly and go riding to be rid of the drowsiness.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by C. E. Holton.

Why She Enjoyed the Earthquake.

An old lady from Oxford, Mich., who with her husband had spent the winter in this State, was asked by one of her neighbors if she heard an earthquake while in California. "Yes, I heard one," she answered, "and rather enjoyed it; for it was the first thing that happened since John and I have been married that he did not think I was to blame for."

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits.' Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

We only wish you had the means sufficient to advertise your medicine as to find for it the market to which its value so fully entitles it.

Faithfully yours,

Camara's Fleet.

Madrid, June 9—The cabinet held a council today, after which Senor Aunon, minister of marine, started for Cadiz to expedite the departure of Admiral Camara's fleet.

The visit to Cadiz of Senor Aunon is also said to be prompted by a suspicion of an impending American attack on that place. He will make a report on the condition of the defences at Cadiz, and will probably go thence to La Coruna.

Orders have been issued for from 2,000 to 3,000 members of the reserve to assemble at Cadiz to join Admiral Camara's squadron if they should be needed.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervogs system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impuritie in the blood. Electric Bitters improves the appetite, aidsdigestion, and is pronounced byt those who have tried it as the very bes blood purifier and nerve tonic. Try it· Sold for 50c or $1.00 per bottle at C, E. gives good blood. It is a nerve strengthener and restorer, the efficacy of which cannot be over-estimated; when it is learned that its absolute freedom from poisonous drugs or opiates, makes it safe for use in the hands of sick or inexperienced persons, there is an increased appreciation of it. JOHNSTON'S SARSAPARILLA is a specific for impoverished or impotent nerves; it feeds the nervous system to high health, provides for physical and brain endurance, cheerfulness, happiness and energy.

JUST

2 Years Ago TODAY

Since we became Clothiers aud Furnishers in our own name.

June 10th, 1896,

is the date of our birth.

We find ourselves in a healthy condition, "not suffering from the proverbial second summer."
We have cut quite a lot of teeth in the meantime, but not all of them.
Our wisdom teeth are slow to appear.
A person's good health is due to their living up to the laws of nature.

Our Business Health

today is due to our untiring effort to please our customers, in appreciation of which they have furnished us with a generous support.
It will be our effort to have the treatment continued. Our

Arcadian Underwear

is the most camfortable; you can see through it.
